

Elnur Kasimov

Junior Java Developer

SUMMARY

I am a Junior Java Developer looking for a full-time position in a company that's aimed at making both everyday life and business either, more productive and convenient. I have sound knowledge in OOP, SQL, JDBC, servlets and Spring. Also I have hands-on experience in following Agile/Scrum methodologies working in command projects. Having a great experience in management, I intend to firstly improve my technical skills in order to realize my full potential as a contribution of success of the company. So, I'm looking for a team where I can grow professionally and create a product that can solve end-user problems.

PROJECT EXPERIENCE

My Notebook (Java Core, SQL, Spring (MVC, Data, Security, Boot), Thyme Leaf, Gradle, Git, AWS). Command project, web application for creating, storing and sharing notes. Role: Team lead, Scrum master. Responsibilities - management and organization, code review.

Telegram Currency Bot, (Java Core, REST API, HTTP, Gradle, Git)
